Profile

I am a quick learner and team player recent graduate seeking a junior developer position in a company where I could learn and improve my coding skills.

Projects

MoveIt

A website that developers or students can use to help them focus on their work and stay healthy. The idea behind it is to encourage the users to do a light exercise after each pomodoro cycle (set to 3s only for demonstration purposes). When a challenge is completed the user receives xp points and levels up.

- Programming Languages: Next.js and TypeScript
- Tools/Features: React hooks, data stored in cookies
- Deployed with: Vercel

NotesApp

Simple personal project website where users can create, edit and delete notes.

- Programming Languages: React
- Tools/Features: Styled-components, hooks, browser local storage
- Deployed with: Heroku

Portfolio

Portfolio website to show my school and personal projects.

- Programming Languages: React
- Tools/Features: Sass, hooks, GSAP (animations)
- Deployed with: Vercel
